"Send . . . Something to EAT for Christmas!"

Rev. Jacob Peltz

A grateful missionary and relief worker writes: "Your letter and the many packages which followed it, especially the CARE food parcels, gave us no end of joy and encouragement, since we were able to help so many in their terrible hunger and distress."

Another Hebrew Christian missionary writes on behalf of her converts in Jugoslavia: "You may think that the economic situation has improved here, but not for the people who have survived the gas chambers. They are still in dire need, for they are unemployed, and broken in body." Then she makes this pathetic plea: "Please, dear brother, do send food parcels to these Hebrew Christians so they may have something to eat for Christmas!"

We plead with you, dear Christian friend, to help us to send these Hebrew Christians not costly presents, but "something to eat for Christmas." At this blessed Christmas season help us to relieve distress and give joy to Hebrew Christians in Germany, Hungary, Jugoslavia, Israel, and other places where our ministry extends. Please remember especially the little children and the aged Hebrew Christians whom we support in Homes. Remember the words of our Lord: "Unto the least . . . my brethren."

Wise Men from the University

By MICHAEL DAVIS

NOW WHEN Jesus was born in Bethlehem of Judea in the days of Herod the King, behold, there came wise men from the university of Jerusalem.

Saying, Where is the bright new star we have followed so far? We have traveled many miles over desert and mountains to get a closer look.

Herod assembled the chief priests and scribes of the people and demanded of them where the star could best be seen.

And they said unto him, In Bethlehem of Judea, for thus it is written in the astrology maps.

The wise men started on the dusty road to Bethlehem, their camels laden down with microscopes and telescopes and gyroscopes. And slide rules.

And when they saw the star, they rejoiced with exceeding great joy. The learned professors of the university, followed faithfully by their adoring students, looked for the best place to view the new constellation. After a long search, they finally set up their instruments outside a stable and made notes as to the shape and size of the star. Amazing! Fantastic! Like no other star! they exclaimed.

Noise from the stable disrupted their calculations and exclamations. One of the students approached the stable, opened the door, and said,

Madame, please keep that Baby from crying. We are trying to record a great new astronomical discovery, and the noise is distracting.
